GEORGE MEYER

#### PVC SHEETS

PVC cladding will be used in interior spaces to provide a memorable and playful tone and distinguish spaces and alcoves.

#### SLATTED WOOD PANEL CLADDING

Slatted wood panels provide varying levels of permeability and provide a contrast to the heaviness of the stone siding.

#### STUCCO

Stucco will be employed primarily along walls with wood framing. It's simplicity permits a balance between the exterior siding of the stone and slatted wood cladding.

#### STONE CLADDING

Stone cladding will be applied to exterior walls of precast concrete. The intention behind this material is to provide a distinct barrier between public and residential spaces.

## Resume Highlights

### ways of healing

there are multiple ways that everyone heals  
and architecture should intuitively support  
the indirect forms of healing. Some people  
heal through being alone and some through  
socializing with strangers, community, or by  
being with close friends and family. it is  
essential that the survivors have the choice of  
WKH.G.LQ.HUHQW.ZDV.LQ.KHDOLQJ.ZLW

installation..... mental mindset..... body movement..... ball movement..... volleyball jump serve

CHLOE GILLESPIE

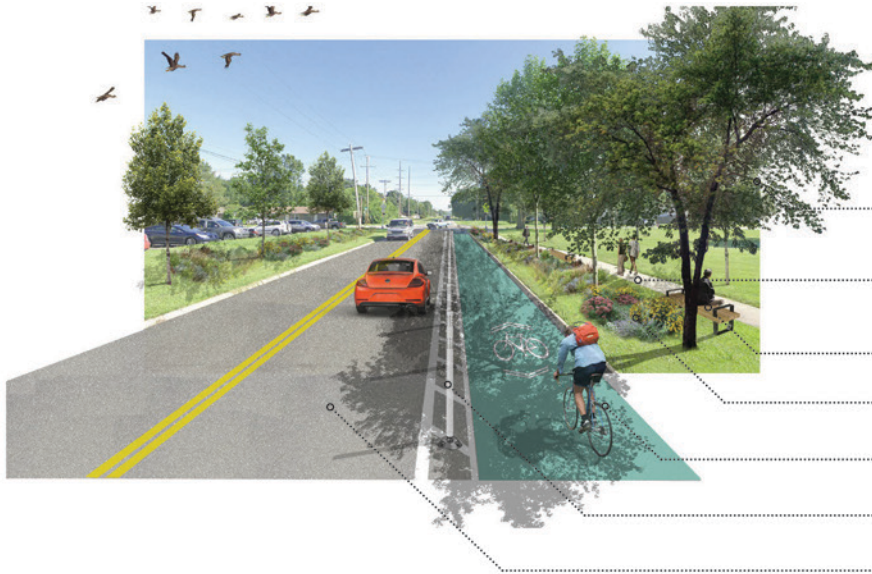

**Tree Plantings**

Trees will be used to provide shade and comfort to the sidewalk and bike lane. These trees will be native species and able to withstand streetscape conditions.

**Pedestrian Sidewalk**

The existing sidewalk will be kept and improved to accommodate foot traffic along Casement.

**Seating Elements**

Benches will be placed along the pedestrian sidewalk for rest and relaxation.

**Rain Gardens**

Rain gardens will be planted in between the pedestrian sidewalk and bike lane. Will collect, retain, and treat stormwater on site.

**Bike Lane**

Adjacent to the street, it will connect existing paths and trails in Northview. Paint will help with wayfinding within the neighborhood.

**Traffic Reflectors**

Will separate the bike lane from Casement Rd, creating a barrier between them making the bike lane safer.

**Casement Road**

Existing road will be kept but lane width will be altered to accommodate the bike lane.
